Introduction

Our MBA Class of 2014 was the first to experience the state-of-the-art facilities available at our new Campus Barcelona Sant Cugat, in a beautiful location where more than sixty start-up companies and SMEs as well as the R+D+i departments from a number of multinationals have already set up their business.

Entrepreneurship and Innovation are, as always, our forté and point of emphasis. With increasing numbers of our MBA participants setting up their own businesses after graduation, we strive to support students in taking their business ideas from inception to a fully-fledged reality.

Our new, larger premises allow for annual events such as Innovation Speed Dating to continue growing in strength; an event uniting entrepreneurs from numerous backgrounds looking to develop a Business Plan with MBA students, and from which several successful ventures have arisen.

About our Elective courses: The ESADE MBA takes a globalist approach. During the exchange semester at ESADE, participants can choose from any of the second year electives, all taught in English.
