1. Tuck is fantastic for its friendly culture due to the small community here (200 students/year).
2. The town of Hanover is small and you can get a bit of cabin fever if the weather turns bad. However, you can always go skiing/snowboarding in the winter.
3. The culture of lectures is very deferential as students ask few questions and the lecturer does most of the talking. However, an Aussie in the audience can always spice things up.
4. The Aussie accent is considered exotic here!!!!
5. If you live on the dorms, it's a great way to get to know everyone.
6. They have a strict no laptop policy currently at Tuck during a lecture.
7. There are considerable fees for health insurance, accommodation (and heating if offcampus), food, miscellaneous. (~$4000 for the term.)
8. The quality of professors are top notch and they are always willing to share a drink in the evening at the Canoe Club on the main street.
