Submission Terms and Conditions

Submission deadline: **Thursday 20 August 2015**

1. Only one presentation may be made per author. Authors submitting more than one paper should ensure a co-author is available and willing to present the paper at the conference should it be accepted for presentation.

2. All papers presented at the conference will be discussed and in turn, all authors accepted for presentation are asked to discuss a paper. A submission to the conference indicates an acceptance of this condition. Your willingness to act as a discussant provides invaluable feedback to another author, whilst your own research will be similarly benefited through the shared opinions and expertise of others.

3. Conference proceedings: online post-conference proceedings are produced through SSRN and sent to all FEN subscribers. If you wish to be included in these proceedings, your paper must be available for public view on SSRN. Only papers that are accepted and presented at the AFBC may be included in these proceedings.

4. Only papers presented at the Conference are eligible for prizes.
