This brochure is to recognize research excellence within the School of Management. Congratulations to all members for their achieved research output this year.

Dear All,

I would like to congratulate all members of the School of Management for the great research output that was achieved in 2014.

There were many A* and A journal articles, special issues, a couple of edited books and many book chapters. Moreover, the School of Management was very successful in receiving research awards, two ARC Linkages, and a ARC Discovery.

This overview has been produced with the objective for us all to have a greater understanding of the work produced by our colleagues. May we learn more from each others’ work and discover other staff members who have a similar area of research.

I am very happy to present the high impact research output of our School in this brochure, and I hope that we can publish such a summary every year from now on. I would like to thank Tanya Allan, Andy Tompkins and Yazmin Collins, for their valuable help in putting this brochure together.

I hope 2015 will in the same way, be successful for us.

Professor Karin Sanders
