We offer two postgraduate research degrees — Doctor of Philosophy (PhD) and Master of Philosophy (MPhil). Our graduates are engaged in a number of core areas of research strength, and our research programs provide expert knowledge in the areas of finance, marketing, information systems, accounting, and taxation. In addition, they work in other fields, including behavioural economics and macroeconomics.

**Doctor of Philosophy (PhD)**
- A research degree that involves a significant, original contribution to knowledge in your field of study. You will acquire advanced specialist research training and conduct a component of coursework. The MPhil consists of four coursework subjects, followed by a research component (usually undertaken in your first year).
- The PhD is designed for people who plan to have a career in research or teaching. This degree is ideal for those who want to conduct independent research and produce a thesis that shows expert knowledge of the area.

**Master of Philosophy (MPhil)**
- A research degree that involves an original piece of research. This degree is ideal for those who want to conduct independent research and produce a thesis. MPhil candidates complete coursework subjects, followed by a component of coursework or research. The MPhil is designed for people who plan to have a career in research or teaching. This degree is ideal for those who want to conduct independent research and produce a thesis.

**Expected Duration**
- PhD: 3-4 years
- MPhil: 3 years

**Scholarships**
There are many scholarships available for postgraduate research. More information: business.unsw.edu.au/programs-postgraduate-research

**How to apply**
For international candidates, you will need to have a separate visa to undertake a PhD or MPhil. Before you apply, please:
1. Check you meet the academic entry requirements.
2. Find your research area within our world-leading research programs.
3. Develop a research proposal.

WELCOME TO THE UNSW BUSINESS SCHOOL

Degree and postgraduate education is a great opportunity to show the world and yourself what you are capable of. You'll learn skills and techniques that will last you a lifetime, so that you can open the door to exciting and fulfilling career opportunities. As one of the leading research-intensive universities in the Asia-Pacific region, UNSW Business School is committed to creating a leadership environment that inspires economic progress, and welcomes those who want to be at the forefront of change.

Founded in 1947, UNSW Business School is ranked in the top 100 in the world by the 2015/16 QS World Rankings and #21 globally in Economics and Econometrics and #24 globally in Business and Management by ARWU (Shanghai Jiao Tong) University. UNSW Business School is ranked #6 in Australia in the world according to the 2015/16 Times Higher Education World University Rankings. With a strong focus on research, UNSW Business School is home to the Sydney Institute for Plant Science Innovation and Future Food. Our researchers are at the forefront of developing breakthrough solutions to some of the most important challenges facing society.

Your research degree will set you up for success in a fulfilling career, with organisations such as government bodies, commercial companies, legal firms, non-governmental organisations, and leading business, university or research organisations. Your research will contribute to original and objective thought on the most important challenges facing society.
